

Beale Infrastructure Joins Clean Energy Buyers Association (CEBA)

Membership underscores Beale's commitment to advancing clean energy solutions and responsible digital infrastructure growth across North America

SAN FRANCISCO — November 17, 2025 — [Beale Infrastructure](#) (“Beale”), a digital infrastructure developer for the world’s leading technology companies, today announced it has joined the Clean Energy Buyers Association (CEBA) to contribute to industry wide conversations focused on accelerating the adoption of clean, firm power across digital infrastructure.

CEBA is a leading business trade association dedicated to expanding access to clean, reliable, and affordable energy for commercial and industrial customers. As a member of CEBA’s Data Center Community of Practice, Beale will partner with hyperscalers, utilities, and renewable energy developers to address the complex challenges of scaling digital infrastructure while meeting ambitious decarbonization goals.

“Joining CEBA reinforces our long-term commitment to responsible growth and sustainable development, including sourcing carbon-free energy for new data center projects,” said Sam Arons, Vice President of Energy & Sustainability at Beale. “We look forward to collaborating with CEBA’s member ecosystem to accelerate progress toward a resilient, low-carbon future that supports and drives positive outcomes for our local communities.”

“We’re pleased to welcome Beale to CEBA and look forward to shaping the clean energy future together,” said Kit Brown, Manager, Data Center Communities of Practice at CEBA. “Beale’s expertise and leadership in sustainable data center development will be a valuable addition to our network as we work to expand access to clean energy solutions for all market participants.”

About Beale Infrastructure

Beale Infrastructure builds data centers that power our digital lives – responsibly, and in partnership with the communities and utilities that make them possible. We work with the world’s leading technology companies to deliver reliable and sustainable infrastructure that strengthens local economies and connects people for generations to come.

About CEBA

The Clean Energy Buyers Association (CEBA) is a business trade association that activates a community of energy customers and partners to deploy market and policy solutions for a carbon emissions-free energy system. CEBA’s more than 400 members comprise one-fifth of the Fortune 500, represent more than \$33 trillion in market capitalization, and include institutional energy customers of every type and size — corporate and industrial companies, universities, and cities.
